Converge A/V VGA over Cat5 UTP Repeater/Extender for ST121 Series
StarTech ID: ST121EXT

The Converge A/V VGA over Cat5 video repeater works with the ST121UTP and the ST1214T. Use this product to deliver content to multiple points from one source. The video signal is sent to remote monitors over standard 4 pair Category 5 UTP cable using RJ45 connectors and supports distances of up to 150m / 500ft.

Allow Converge A/V to provide you with digital signage solutions. Applications include airports, bus depots, retail, or any large buildings where video needs to be delivered at long distances.

Applications and Solutions
> For applications where the display is placed in a convenient viewing area, but the system equipment is placed elsewhere in a
> Ideal for digital signage applications in financial, educational, and business sectors
> Ideal for industrial sites with harsh environments
> Ideal for video conferencing and demo stations

Features
> Acts as repeater to add 820 feet to total extension distances provided by ST121UTP and ST1214T
> Extends video cables by up to 500 ft. (150m)
> Provides additional display/drop points for existing Cat5 signal extensions
